Dear Evangadi

This project is purpose is to show my hard work dedication and readiness to Evangadi became software engineer and I want the evangadi community to develop my skill, still now I learn and develop my skill from online sources within one month I learn basic programing and I built my simple personal portfolio website using HTML, CSS and very simple JavaScript, I think this website is show my readiness and dedication to consider my application later.

I write every ting in my essay document

My all document is attached in document file please check it

Sincerely,
Hailemichael Misganew
